COIN CLUB PURCHASE SERVICE

BENEFITS

The Coin Club purchase service enables you to **purchase bullion coins on a regular basis**.

Each year you will receive a commercial rebate of 2.15% in coins on the amount purchased during the year.

With this purchase service you enjoy exclusive benefits for the acquisition of special editions or “premium” consideration for contracting any of the other services of the company SilverGold Patrimonio.

CONTRACTING IN 3 STEPS

1 DESIGN OF PLANNED ACQUISITION

We carry out a study of your needs and objectives in order to set up regular purchases of bullion coins with which you can gradually create a portfolio of precious metals. We offer open-ended contracts with a minimum duration of one year.

We support you at all times so you can decide the most interesting option according to your interests and activate the purchase.

2 COIN CLUB PURCHASE ACTIVATED

The contracting procedures begin with an **Order Form** and the required documentation. Once the contract has been signed, you have 5 working days to carry out the bank transfer for the amount of your purchase.

3 YOUR METAL, DULY PROTECTED

For greater security, the metal purchased will be deposited at a first-rate security company during the term of the contract.

CLARITY AND TRANSPARENCY

FLEXIBILITY

Make your purchases on a one-off or regular basis and decide how many coins to purchase at any time.

COMMITMENT

If no buyer has been found for your metal on the expiry date of the contract, SilverGold Patrimonio pledges to purchase the metal covered by the contract for its own inventory. In this case the reference price will be the one set on Invermoneda -5%.

QUALITY AND TRANSPARENCY

At SilverGold Patrimonio we only work with precious metals in the form of ingots or bullion coins. All the metal comes from the world's most prestigious Mints and the most renowned refineries in the sector. The minimum purity of our metals is:

- › **GOLD & SILVER:** 999,99
- › **PLATINUM & RHODIUM:** 999,5
- › **PALLADIUM:** 995

TAXATION

Price revaluations obtained through the purchase and sale of metals covered by the contracts are subject to capital gains tax. Each year, you will be sent a tax assessment with the summary of purchase and sale transactions for the purposes of fulfilling the corresponding tax obligations.
