anually	1.200 €	900 €	6.000 €	10.000 €

REGULAR PURCHASE SERVICE

BENEFITS

With the Regular purchase service you will carry out **monthly purchase of precious metals as an investment with which to generate future capital**, gradually and almost without noticing.

CONTRACTING IN 3 STEPS

1

DESIGN OF PLANNED ACQUISITION

Plan how to create precious metal assets as an investment entirely at your own pace. We have contracts ranging from 5 to 25 years and flexible payment periods (monthly, quarterly, half-yearly or annually). Choose the metal you wish to purchase: Gold, Silver, Platinum, or Palladium. Decide if you want a portfolio with a single metal or if you prefer to combine them.

We support you at all times so you can decide the most interesting option according to your interests and activate the purchase.

2

REGULAR PURCHASE ACTIVATED

The contracting procedures begin with an **Order Form** and the required documentation. Once the contract has been signed, you have 5 working days to carry out the bank transfer for the amount of your purchase.

Each month you will receive the Annex with the details of your metal assignment duly identified.

3

YOUR METAL, DULY PROTECTED

For greater security, the metal purchased will be deposited at a first-rate security company during the term of the contract.

CLARITY AND TRANSPARENCY

FLEXIBILITY

Make additional contributions with the minimum amount of a monthly payment. Extend the duration of the contract if you need to or cancel it if you want to after the first year.

COMMITMENT

If no buyer has been found for your metal on the expiry date of the contract, SilverGold Patrimonio pledges to purchase the metal covered by the contract for its own inventory. In this case the reference price will be the one set on Invermoneda -5%.

QUALITY AND TRANSPARENCY

At SilverGold Patrimonio we only work with precious metals in the form of ingots or bullion coins. All the metal comes from the world's most prestigious Mints and the most renowned refineries in the sector. The minimum purity of our metals is:

- › **GOLD & SILVER:** 999,99
- › **PLATINUM & RHODIUM:** 999,5
- › **PALADIUM:** 995

TAXATION

Price revaluations obtained through the purchase and sale of metals covered by the contracts are subject to capital gains tax. Each year, you will be sent a tax assessment with the summary of purchase and sale transactions for the purposes of fulfilling the corresponding tax obligations.
